Dear VSCA Families,

As stated in previous correspondence, VSCA is following all of the CDC guidelines in reopening the school including, but not limited to, 6 foot distancing of students, requiring face masks, and an increase in hand washing. We are also pleased that Bethlehem Assembly of God has made all of our paper towel holders and bathroom faucets touchless. We had informed our families that, as an added safe guard, we would be having 3 sided desk shields for each student. Unfortunately, the manufacturer has informed us that the majority of these shields will not be arriving for another 2 weeks. We had already received the shields for Kindergarten through 2nd grade and those will be in place at the start of school. While these shields are not mandatory, we wanted to keep our families up to date with their availability. If your child has chosen either of the hybrid models and you would like to stay fully remote until the shields are in place, please email Ms. Hough (xhough@vscaschool.org) to update her on your decision. We will let our families know as soon as the shields have arrived and are in place. I apologize (again!) for any inconvenience this may cause. Most schools are vying for the same products making it difficult for manufactures to keep up with the demand. As always, thank you for your understanding.

Regards,

Leslie Fowley
